Delivery of dormitory furniture and bakery equipment to CENAID in the city of Santa Cruz, with the presence of Mr. Wayne Nilsestuen, USAID Director.

*"This Quarterly Report was made possible by the generous support of the people of the United States of America, administered through the United States Agency for International Development (USAID). The contents of this report are the responsibility of ACDI/VOCA-Bolivia and do not reflect the points of view of USAID or the government of the United States of America."*

## I. BACKGROUND AND CONTEXT

The CDAF Program began on September 30, 2009. Its overall goal is to support communities throughout Bolivia in meeting their basic needs. The purpose of the project is to assist underserved communities to resolve specific, self-identified problems through small grants. The objectives are to:

- a) Finance small-scale development activities to respond to immediate needs of Bolivians in ways that build local problem-solving capacities, and
- b) Contribute to promoting better understanding of the United States Government (USG) and its development assistance in Bolivia through activities that have an impact on the level of the individual.

To achieve these goals and objectives, ACDI/VOCA implements the CDAF Program in close coordination and consultation with USAID and through a series of activities designed to empower communities to achieve their social and economic development objectives. Over the five-year life of project (LOP), the CDAF Program will implement more than 90 small-grant projects throughout Bolivia, with particular emphasis on benefitting traditionally excluded segments of the population, including women and indigenous groups. The CDAF Program will implement approximately 15-20 small, self-help projects per year.

The CDAF Program advocates and advances valuable initiatives through transparent and objective identification, assessment and development methodologies, working with concerned citizens and beneficiary groups to facilitate idea-sharing on how to improve stakeholders' lives.

## II. PROGRAM SUMMARY

This report summarizes activities during the third quarter of FY 2012 (April 1 - June 30, 2012). Project activities are reported by programmatic area (Inclusion, Maternal and Child Health, Agriculture, Productive Chains, Justice and Biodiversity). During this reporting period, the following key activities were completed:

### Achievements of the Quarter

- During this quarter, the CDAF budget and program description modification was approved by USAID.
- Meetings and follow-up visits were conducted for projects in various municipalities and departments.
- The Information System for the Community Development Activity Fund (SICDAF) was updated.
- During this quarter cooperative agreements were signed with the following beneficiary groups:
  - ✓ Yaguarú Community Center - A.P.A.E.E.I.G., for the construction of an office, storage area and meeting room.
  - ✓ Fundación Casa Éxodo for the provision of bakery equipment.
  - ✓ Comunidad Chiman de Misión Fátima for the provision of a solar panel, parabolic antenna, televisión and DVD player.
  - ✓ A women's group from the Pariri Community for the construction of four horticultural solar tents.
  - ✓ The Av. Juan Pablo II association of shoe shiners in the city of El Alto for the provision of work uniforms, overalls, hats and masks.

- ✓ The Charazani Municipality for the provision of computer equipment to three schools.

### **Meetings:**

- Periodic meetings were held with USAID, represented by Ms. Virginia Moscoso (AOR-USAID) and Mr. Walter Mur, in order to review recently submitted project proposals. Technical and environmental parameters of the projects were discussed as well as field visits and project handovers.
- Meetings were held with the municipal governments of Taraco, J.J., Perez-Charazani and the shoe shiner association to complete project proposals for USAID submission. Upon request from USAID, a meeting was also held with Deputy Virginia Ramirez in the Chuquisaca Department to sign an agreement for refurbishment of the local school.
- Project staff accompanied USAID representatives during a meeting with a community group in District 8 of El Alto to discuss the construction of the Bolivian-American classrooms.
- In coordination with Mr. Walter Mur from USAID, program staff met with the PROBIOMA laboratories in San Luis in order to better understand the project and the potential for alliances with other USAID Bolivia funded organizations such as the Valley and Nature Foundation.

### **Project Handovers:**

- Upon invitation from the UNI Community, program staff attended the official inauguration of the community center.
- Project handovers were conducted in coordination with USAID and the American Embassy in the Santa Cruz Department and the Charazani Municipality of La Paz.
- The installation of a solar panel and parabolic antenna was celebrated in the in Chimanes indigenous community in Misión Fátima of the Beni Department.

Table 1: Current status of CDAF projects

Project Status	Total	%
Concluded	49	84.48
In Implementation	1	1.72
Approval Process	8	13.79
<b>Total</b>	<b>58</b>	<b>100.00</b>

### **Concluded Projects**

- Refurbishment of the Mojinete Health center (CDAF 045)
- Provision of goods to CENAID (CDAF 046)
- Casa Éxodo Rehabilitation and social reinsertion house (CDAF 048)
- Chiman Community solar panel and parabolic antenna (CDAF 050)
- Charazani Municipality computer equipment (CDAF 053)

### **Projects in Implementation**

- Provision of overalls, hats and masks to the El Alto association of shoe shiners (CDAF 052).

### Projects in Approval Process

- A.P.A.E.E.I.G. meeting center, office and storage space (CDAF 047)
- Agro-ecological management of crops (CDAF 049)
- Construction of solar tents in the Pariri community (CDAF 051)
- Construction of computer room in Taraco Municipality (CDAF 054)
- Construction of three Bolivian-American schools (CDAF 055)
- Provision of computer equipment to Dr. José Carrasco school – Entre Ríos (CDAF 056)
- School refurbishment and capacitation – Sucre (CDAF 057)
- Support to firefighters SAR BOLIVIA (CDAF 058)

## III. CDAF IN NUMBERS

The following diagram presents a summary of information about the projects in the CDAF portfolio in terms of the assignment, number of beneficiaries, departments and amount of investment. Annex 1 contains a list of all the projects with complementary information for each.

**Table 2: Location of concluded CDAF projects by department, investment, assignment and number of beneficiaries.**

## IV. SUMMARY OF ACTIVITIES

### A. INCLUSION

#### Projects in Approval Process

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>A.P.A.E.I.G. MEETING CENTER, OFFICE AND STORAGE SPACE (CDAF 047)</b>	<b>Yaguarú Comunal Center</b>	<b>Santa Cruz</b>
<p><b>Activity Description:</b> The Yaguarú community center brings together four communities (Yaguarú, San Luís, Santa Ana y Cururú). This indigenous community does not have sufficient resources to construct a training center for the more than 70 families it serves. To date they have benefitted from certified seeds of corn, rice and peanuts as well as inputs such as bags, threshing machines, seed planters among others which have been provided by the government of Santa Cruz. However the community lacks sufficient capacity to effectively store and distribute these goods.</p> <p>With the implementation of this project, the community will be able to facilitate capacity building workshops, courses and continuous meetings of relevant associations. It will also provide the organizations a location from which to sell their products.</p>		

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>COMPUTER ROOM CONSTRUCTION TARACO MUNICIPALITY (CDAF 054)</b>	<b>Students and teachers of U.E. Julián Apaza</b>	<b>La Paz – Municipio Taraco</b>
<p><b>Activity Description:</b> This municipality has 26 computer systems that were donated by the Bolivian government but there is no place to install and use them. The computers are still in boxes and the municipality is in need of a computer room to be built as part of the Julián Apaza school. Community authorities have agreed to provide cost share.</p> <p>The new room will improve the quality of education for the 140 students in the school.</p> <p>This project will directly benefit 140 students and teachers.</p>		

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>CONSTRUCTION OF THREE BOLIVIAN-AMERICAN CLASSROOMS (CDAF 055)</b>	<b>Students and teachers of the Bolivian-American classrooms.</b>	<b>La Paz - El Alto</b>

**Activity Description:** The Bolivian-Americans school was founded November 30, 2006 and to date has 345 students in primary and secondary levels of education.

The shortage of economic resources and municipal support has caused the school to become very crowded. There are three classes that have to be scheduled in the afternoon because not all of the students can fit in the morning sessions. As a result, some children have to drop off their younger siblings at school in the morning and return a second time in the afternoon.

With the construction of three additional classrooms, these children will benefit from only having to travel to the school once a day. These new rooms will also open up an opportunity to create afternoon classes for students in other zones, helping to accommodate the large demand for education.

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>COMPUTER EQUIPMENT U.E. DR CARRASCO MUNICIPIO DE ENTRE RIOS (CDAF 056)</b>	<b>Students and Teachers of U.E. Dr. José Carrasco</b>	<b>Cochabamba – Municipio Entre Ríos</b>
<p><b>Activity Description:</b> President of the Bolivian Intercultural Confederation, Pedro Calderon, has requested a computer room for Unidad Educativa Dr. José Carrasco to increase learning and computer skills among students as established in the Avelino Siñani Law. This agreement will benefit more than 1,100 students and administrative staff. Authorities of the Sub Alcaldía Manco Kapac, the Junta Escolar and school’s director have signed an agreement to guarantee the care and proper management of the equipment. They have also agreed to provide transportation for the equipment, voltage stabilizers and computer classes which will be administered by a teacher.</p> <p>With the new infrastructure and financial support (13 computer systems) the quality of education will be increased for both the students and the professors.</p>		

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>INFRASTRUCTURE AND SCHOOL REFURBISHMENT (CDAF 057)</b>	<b>Women with Scarce Resources</b>	<b>Chuquisaca – Sucre</b>
<p><b>Activity Description:</b> The Association of Women’s Strength is based in the city of Sucre and is made up of 32 women with various skills and specialties. These skills include: hand and machine tailoring, quilting, hairstyling and sewing (bride’s dresses, blouses, aprons and others). This association was started in an effort to assist 168 women with scarce economic resources that have not had the opportunity to go to school or establish a technical skill with which to earn sufficient income. The majority of these women have not been able to study past the third or fourth grade of primary school and consist largely of single mothers with more than four children, making them the sole source of income for the entire family.</p>		

With the manual skills that these women learn, they are able to obtain employment and improve the condition of their entire family. They will be able to start their own businesses based off of their new skills.

In order to achieve this objective, an area to hold the class must be refurbished. This refurbishment requires changes to the entire structure of the building including the roof (which is about to collapse) electrical installations, floors and interior and exterior plaster walls.

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>SUPPORT TO FIREFIGHTERS CIA SANTA BÁRBARA –SAR BOLIVIA (CDAF 058)</b>	<b>GENERAL POPULATION</b>	<b>La Paz</b>

**Activity Description:** The city of La Paz currently lacks a self-sufficient system to respond to emergencies and natural disasters. Since 2002, a group of volunteers and advisors from other first response groups, in collaboration with SAR-Bolivia, established the Second Company of Firefighters of SAR – Bolivia in order to better respond to emergencies in La Paz. The organization has three groups of immediate responders: search and rescue, emergency medical response and the corps of volunteer firefighters. The Santa Barbara Company has been known to work in a very professional way, with its volunteers forming special brigades that work both nationally and internationally. The company responds to between 1,000 and 1,500 cases each year. Being a non-profit public organization, the firefighters have great need for equipment and logistical support that restrict the coverage of their services.

This project will provide support to the organization and allow them to provide better quality service to the public as well as increase they range or service.

### Active Projects

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>PROVISION OF MASKS, OVERALLS AND HATS TO EL ALTO SHOE SHINER ASSOCIATION (CDAF 052)</b>	<b>Av. Juan Pablo II Association of Shoe Shiners in El Alto.</b>	<b>La Paz – El Alto</b>

**Activity Description:** The association of shoe shiners, Av. Juan Pablo de el Alto, has 35 members that migrated from various provinces within the department to the city of El Alto and were unable to find work. The association was started in 1997 and has never received assistance from the municipal or national government. However it has still managed to

succeed.

The donation of overalls, masks and hats will help the organization to stand out during its daily activities on Avenida Juan Pablo II. A cost share agreement exists with the association which will provide polishing boxes, dye, polish and brushes.

## **Concluded Projects**

### **Support to CENAID (CDAF 046)**

Handover ceremony with the presence of USAID/Bolivia and local authorities.

On May 24, 2012 with the presence of USAID Director Wayne Nilsestuen, the beneficiaries of CENAID, and local government authorities, the municipal authorities supported by CENAID delivered furniture and machinery for the establishment of a bakery that will be used by the beneficiaries of CENAID and allow them to learn baking and commercial skills which will assist them in their reintegration into society. This support directly benefits 470 people.

### **Rehabilitation and Reinsertion Casa Éxodo (CDAF 048)**

Beneficiaries learn to use the bakery equipment provided by USAID.

In May 2012, bakery equipment was delivered to Casa Éxodo. This equipment will directly benefit the members of Casa Éxodo by helping them to learn valuable skills that will help them upon reintegration into society. This project will directly benefit 70 members of Casa Éxodo.

### Provision of Solar Panels –Chiman Community (CDAF 050)

Children of the Misión Fátima community stand in front of the parabolic antenna and solar panel that provides electricity to their school.

In response to a request by the Chimanes indigenous community in Misión Fátima, located in the Department of Beni on the Maniqui River, a parabolic antenna, solar panel, television and DVD player was installed that will support the development of the population, by providing educational programming and much needed electricity to power lights. This project directly benefits more than 800 people.

### Computer Equipment Charazani Municipality (CDAF 053)

Mr. Blake from the US Embassy hands over computer equipment to municipal authorities of the districts.

Computer equipment, three printers and 9 voltage stabilizers were delivered to the Central Yawar Mallku school in three districts of the Charazani Municipality. This delivery was conducted by US embassy representative Mr. Richmond Blake. The project improves the quality of education and technological information among the beneficiaries, benefiting more than 789 students and teachers.

## B. HEALTH (MATERNAL AND INFANT)

### Projects in Approval Process

- There were no specific activities under this program area this quarter.

**Completed Projects**

**Refurbishment of Mojinete Health center (CDAF 045)**

The refurbished Mojinete Health center in the Department of Potosí.

The Mojinete Health center was refurbished in response to a request from the Mojinete Municipality located in the Department of Potosí. The refurbishment consisted of improvements to the roof, replacement of plumbing and sanitation systems, general painting and plaster work and relocation of the ambulance garage. This refurbishment will benefit the entire community as it improves the quality of service that the health center can provide. This project will benefit more than 716 people.

**C. AGRICULTURE**

**Projects in Approval Process**

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>CONSTRUCTION OF SOLAR TENTS (CDAF 051)</b>	<b>Pariri Community</b>	<b>La Paz</b>
<p><b>Activity Description:</b> AIPA-Pariri is located in the Pariri community in the Batallas municipality of the La Paz department and is affiliated with AIPMA (Integrated Association of Andean Female Producers). The organization works with livestock pastures and herd management. As an organization they are interested in constructing solar tents (small greenhouses), that would allow for the implementation of horticulture to benefit 20 families that make up the organization.</p> <p>The tents provide controlled environments in which it is possible to grow vegetables and horticultural plants throughout the year. This in turn will provide the benefiting families with a much needed stable food source. With crop harvest in the tents occurring every 45 to 60 days, each family will have an additional annual income of approximately US\$600.</p> <p>This added infrastructure will contribute to the consolidation of the organization and in the distribution of work (including the production and commercialization of excess produce). A cost share agreement exists with the organization to provide labor and local materials.</p>		

## D. ENVIRONMENT

### Projects in Approval Process

NAME AND CODE OF PROJECT	BENEFICIARIES	DEPARTMENT LOCATION
<b>TRAINING IN AGROECOLOGICAL CROP MANAGEMENT (CDAF 049)</b>	<b>Cuevo, Lagunillas, Gutiérrez, Mairana, Valle Grande and Comarapa Municipalities</b>	<b>Santa Cruz</b>
<p><b>Activity Description:</b> The indiscriminant use of agrochemicals, many of which are internationally prohibited, is common among Bolivian farmers, sometimes reaching 40% of total production costs for principal crops such as potatoes, beans, tomatoes, onion, corn and others.</p> <p>The use of agrochemicals has led to negative effects such as residual contaminants in the environment, insect resistance and elimination of natural enemies (bio), all of which demonstrate the ineffectiveness of agrochemicals. Food security based on local capacity and the rational use of genetic resources in the country is an essential factor for the determination of sovereignty over natural resource management by local populations. The approach to integrated natural resource management is aimed at ensuring food security through the recovery and strengthening of traditional knowledge and the implementation of technological innovations based on the management of biodiversity resources and productive development of genetic resources. Training of 20 farmer leaders and technicians in managing ecological impact will impact 400 hectares of agricultural production in the area of valleys and Chaco, benefiting more than 2,000 people including producers, government institutions, private organizations and NGOs.</p>		

## E. VALUE CHAINS

- There were no specific activities under this program area this quarter.

## F. JUSTICE

- There were no specific activities under this program area this quarter.

## V. INDICATOR RESULTS

The monitoring and evaluation plan designed by ACDI/VOCA to support the CDAF project allows for the measurement and analysis of results achieved as well as the projects degree of success.

During the current quarter, CDAF staff engaged in ongoing exchanges of information with USAID on various themes related to indicator adjustment for donor approval and inclusion in the recently signed

amendment to the project agreement. The process of monitoring and evaluation continued on already concluded CDAF projects by means of assessing and analyzing previously submitted surveys.

## VI. FOLLOW-UP AND MONITORING OF CONCLUDED PROJECTS

The Monitoring and Evaluation (M&E) plan designed by ACDI/VOCA for the CDAF program measures and analyzes achieved results to determine the degree of the programs reach and success.

The process of monitoring and evaluation continued for the project and the evaluation was concluded for the Chuquisaca CDAF 033 project. Surveys and results of the final evaluation report were processed and submitted. New evaluations for concluded projects have not been planned for this quarter. Visits conducted during the second quarter of 2012 are as follows:

- Equipment provided to the Mojocoya health center (CDAF 0033) Chuquisaca Dpt.

### PRELIMINARY RESULTS OF THE SURVEY ON ATTITUDES ABOUT THE ROLE OF U.S. GOVERNMENT DEVELOPMENT ASSISTANCE IN BOLIVIA

Since USAID approved the CDAF PMP, ACDI/VOCA staff have been conducting monitoring and evaluation of concluded projects such as the Mojocoya health center project in the Chuquisaca department. To date, 669 surveys have been completed in the areas of health, social inclusion, justice and agriculture. The following table summarizes the number of surveys completed by component and department:

Table 1: Surveys completed by municipality/ component

Departament/ Municipality	Component				Total
	Agriculture	Inclusion	Justice	Health

Source: CDAF survey database 2011 - 2012

The following tables and charts reflect the most relevant information obtained through surveys conducted of project beneficiaries on attitudes about the role of U.S. Government development assistance in Bolivia:

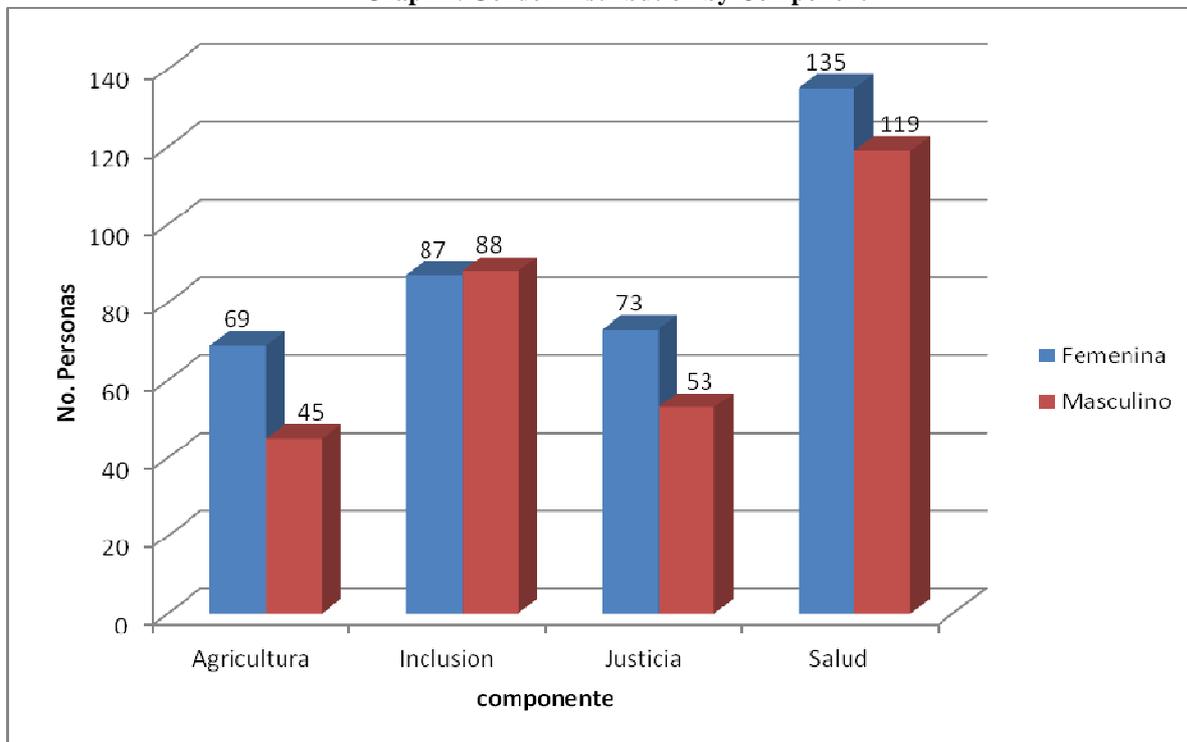

Graph 1 shows the distribution of the average age of surveyed beneficiaries, broken down by the concluded project components. The size of each bubble reflects the number of surveys conducted to date (254) for each component: The average age of all survey takers has decreased this quarter from 29 to 26 as well as the range of survey takers, spanning from 4 to 80 years old. On average, the youngest group interviewed was found in the agriculture component, with an average age of 29 years old.

**Graph 1. CDAF. Average age by component**

The distribution of results by gender shows that there are more women surveyed (54 percent). Gender distribution by project component is shown in the following graph:

**Graph 1. Gender Distribution by Component**

Source: CDAF survey database 2011 - 2012

Overall, an analysis of the data obtained from the CDAF surveys completed to date demonstrates a tendency toward positive perceptions about the role of the U.S. Government in Bolivia and the contributions of USAID as a development partner throughout the different regions of Bolivia and across the different project components. This preliminary analysis is broken down according to regions and then by two age groups within each region. Respondents were asked about three elements: a) if they know about U.S. Government assistance to Bolivia; b) if they know what USAID is; and c) if they know that USAID implements projects in their communitie

Source: CDAF Survey 2011 - 2012

There was a slight change in the percentage of respondents who had a positive perception of the role USAID plays in funding community projects, dropping from 77 percent to 75 percent over the last quarter. The percentage of respondents who are familiar with USAID remained the same at 64 percent. When asked whether they were aware of the role of the USG in Bolivia 67 percent responded in the positive. Given the number of surveys collected during the last quarter, these results do not show any significant change from the previous quarter.

According to the survey, the respondents of Cochabamba had the lowest opinion of the role of the USG in Bolivia, with 53 percent approval rating, followed by Oruro (57 percent) and Tarija (57 percent). Those departments with an above average approval rating were Chuquisaca, where 77 percent of the 200 respondents had a positive opinion of the role of the USG. People 19 years old and above continues to be majority of respondents who hold a positive opinion of the USG.

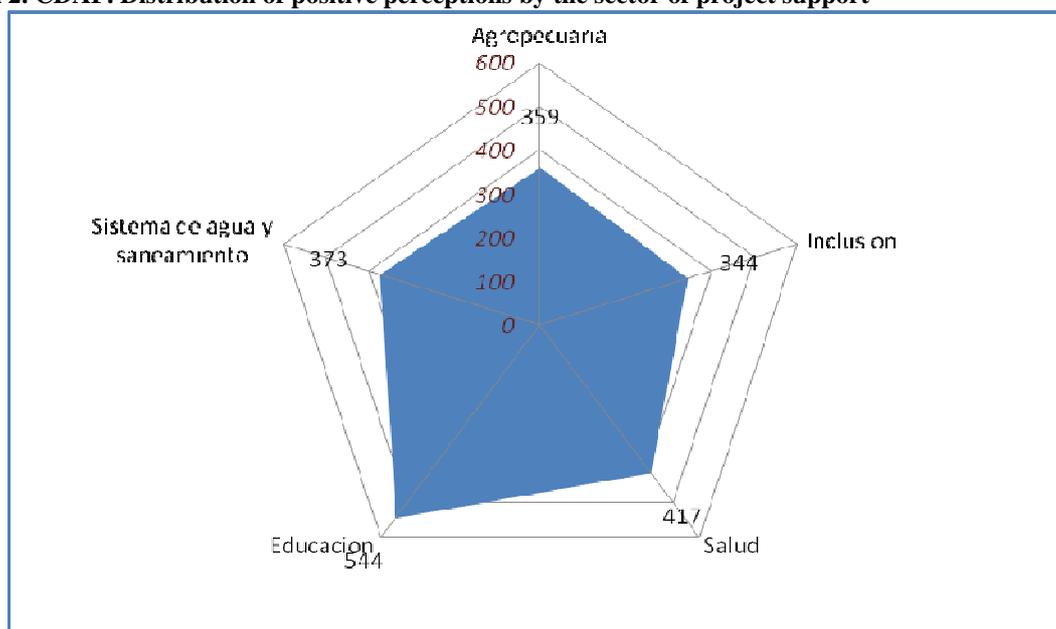

The percent of respondents who were aware of USAID was roughly the same as the percent of those who responded positively to the role of the USG in Bolivia, indicating a direct correlation between the two opinions. This was found to be true in each region and for the simple as a whole. The 64 percent positive response rate remains unchanged from last quarter. Again Cochabamba had the least positive responses (53 percent), while Santa Cruz had the highest percentage, with 74 percent, with the 4 to 19 year olds contributing 71 of the 74 points to that Santa Cruz's positive responses.

The percentage of respondents who were aware that USAID had implemented one or more projects in their community continued to be the question that got the most positive responses, with 77 percent, compared to 75 percent last quarter. 93 percent of the respondents from the Department of Oruro were aware that USAID had invested in their community; compared to only 53 percent in Cochabamba. Over half of the respondents (51 percent) responding to this question in the affirmative were adults 19 and above.

The graphic below analyzes the percentage of respondents aware that USAID had funded a project in their community by the sector of the Project. The highest level of awareness was for education projects with 82 percent and the lowest level of awareness was for social inclusion projects with only 333 positive responses out of the 648 people surveyed.

Overall the number of respondents 19 and above who responded in the affirmative to the survey questions was slightly higher than the number of people under 19 years of age.

**Graph 2. CDAF. Distribution of positive perceptions by the sector of project support**

With the exception of Chuquisaca, this trend was relatively consistent across departments, where education had the highest percentage of positive responses (81 percent) followed by health (62 percent), water and sanitation (56 percent) as evident in the following table:

**Table 3. Distribution of the positive response by project type and department.**

Department/ Project Type	Chuquisaca	Cochabamba	La Paz	Oruro	Potosí	Santa Cruz	Tarija	Total	% of all respondents
<b>Agriculture</b>	94	13	46	24	58	101	23	359	54%

<b>Health</b>	172	17	71	23	73	20	41	417	62%
<b>Education</b>	139	33	115	37	91	98	31	544	81%
<b>Water and Sanitation</b>	87	14	68	23	53	99	29	373	56%

Source: Based upon Survey data collected by CDAF 2011 - 2012

The table below presents the survey findings regarding the degree of satisfaction the respondents expressed with regard to the project implemented by CDAF in each of the respondent communities.

**Table 4. CDAF. Satisfaction level with CDAF projects by Department**

Satisfaction level	Department							
	Chuquisaca	Cochabamba	La Paz	Oruro	Potosí	Santa Cruz	Tarija	Total
<b>Very good</b>	81	12	61	17	55	47	8	281
<b>Good</b>	78	5	42	17	33	52	22	249
<b>Satisfactory</b>	35	2	18	2	15	7	11	90

<b>Not satisfactory</b>	2		4	3	2			11
<b>Deficient</b>	1			2			1	4
<b>NR</b>	3	15	3	5	1		7	34
<b>Total</b>	<b>200</b>	<b>34</b>	<b>128</b>	<b>46</b>	<b>106</b>	<b>106</b>	<b>49</b>	<b>669</b>

Source: Based upon data collected by CDAF 2011 - 2012

Overall, 93 percent of the 669 respondents reported that they considered the Project satisfactory, good or very good, with Young people between the ages of 4 and 21 expressing the highest degree of satisfaction.

**Indicator: R.1. Number of individuals benefitting from the CDAF Program activities**

The total number of individuals that receive one or more types of assistance through the Project interventions, including infrastructure improvements, (education and health), training and skill building, financial assistance, and access to new and better equipment, technologies and services.

INDICATOR R.1.	Unit of Measure	Quarterly Results 2009-2012									Total LOP	Disaggregation

**Objective 1: Finance small development projects or activities that respond to the immediate needs of the Bolivians living in poverty in ways that strengthen the capacity to resolve problems locally.**

**Indicator O.1. Total number of projects financed (small grants disbursed)**

USAID/Bolivia and ACDI/VOCA will develop Project profiles and environmental evaluations, which will be sent to USAID for review and approval. The approved projects will align with USAID’s objectives in Social Inclusion, Economic Growth, Sustainability and Environment, Administration and Health.

## **VII. A VIEW TOWARDS THE FUTURE**

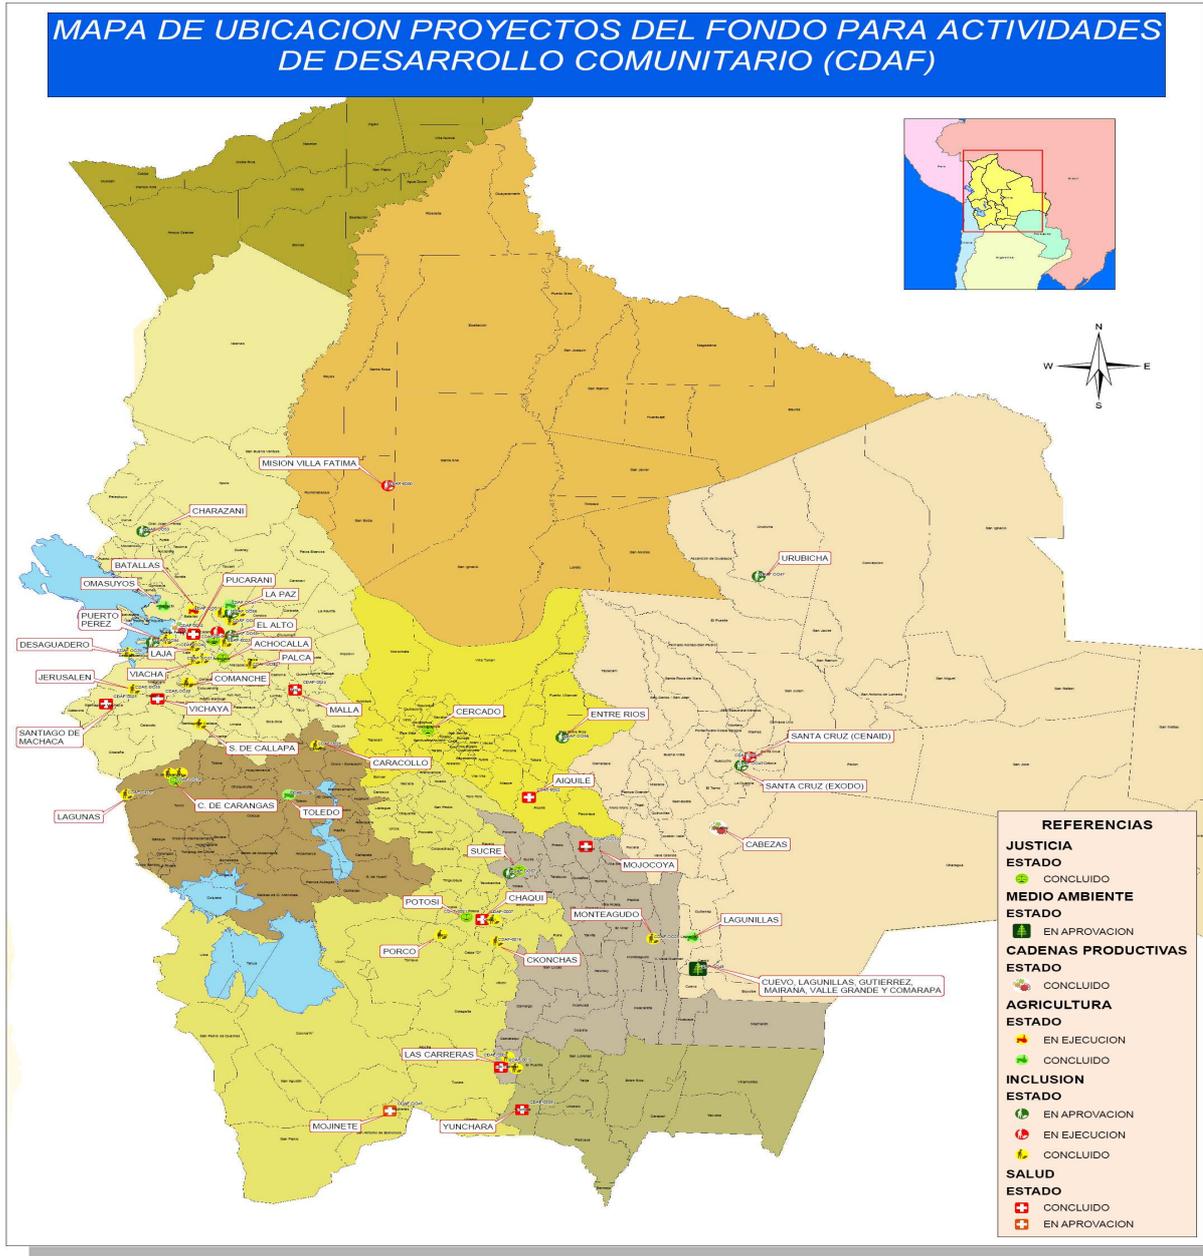

During the next quarter, ACDI/VOCA will carry out the following activities:

- Evaluation, selection and approval of at least three new applications.
- Facilitation of at least two public events that highlight the work of the CDAF program in response to critical needs of the communities.
- Monitoring and evaluation of the projects in execution and follow-up visits to completed projects to ensure that their success is sustained over time.

## **VIII. FINANCIAL INFORMATION**

During the reporting period, ACDI/VOCA spent \$ 69,262 of which \$ 31,518 were sub-grant funds. The expenses against Budget are presented in the pages that follow.
